Ahmad Aldaas

User Experience design Specialist || Fron-End-Dev

Portfilio : Aldaas.com

I'm an experienced UX Designer and Front-End Developer with over 8 years of hands-on experience crafting user-centered digital solutions across the public and private sectors. From conducting in-depth user research to building scalable design systems and high-fidelity prototypes in Figma, I bring a strong blend of creativity and technical know-how to every project.

What drives me? Designing intuitive, efficient, and beautiful digital experience environments. I thrive at the intersection of design and technology, where user needs meet business goals. Whether collaborating with cross-functional teams or diving deep into usability testing, I'm always looking for smarter ways to solve real-world problems through design.

Skills

- **UX/UI Design: Wireframing, Prototyping (Figma), Design-Systeme, User Flows, CX**
- **User Research: Nutzerinterviews, Usability-Tests, Datenanalyse**
- **Front-End Entwicklung: HTML, CSS, Bootstrap, Responsive Design**
- **Tools: Figma, Adobe XD, Sketch, Framer**
- **Soft Skills: Teamarbeit, Kommunikation, Problemlösung, Eigenverantwortung**
